⁽²⁾ Net investment loss per share represents net investment loss divided by the average shares outstanding throughout the period/year.

⁽³⁾ Net asset value total return is calculated assuming an initial investment made at the net asset value at the beginning of the period/year, reinvestment of all dividends and distributions at net asset value during the period and redemption on the last day of the period at net asset value.

⁽⁴⁾ Not annualized

⁽⁵⁾ Market value total return is calculated assuming an initial investment made at market value at the beginning of the period/year, reinvestment of all dividends and distributions at net asset value during the period and redemption on the last day of the period at market value. The market value is determined by the midpoint of the bid/ask spread at 4:00 p.m. from the NYSE Arca, Inc. Exchange. Market value returns may vary from net asset value returns.

⁽⁶⁾ Annualized.

⁽⁷⁾ Portfolio turnover rate excludes in-kind transactions.

NOTE 1 – DESCRIPTION OF ORGANIZATION

Jacob Funds Inc. (the "Corporation") was organized as a Maryland corporation on July 13, 1999 and is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company issuing its shares in series. The Corporation currently consists of three "diversified" series, the Jacob Internet Fund (the "Internet Fund"), the Jacob Small Cap Growth Fund (the "Small Cap Growth Fund"), the Jacob Discovery Fund (the "Discovery Fund") and one "non-diversified" series, the Jacob Forward ETF (the "Forward ETF"), each a "Fund", collectively the "Funds", and the authorized capital stock of the Corporation consists of twenty billion shares of stock having a par value of one-tenth of one cent (\$0.001) per share. The primary investment objective of the Internet Fund is long-term growth of capital with current income as a secondary objective. The primary investment objective of each of the Small Cap Growth Fund, Discovery Fund and Forward ETF is long-term growth of capital.

The Investor Class shares of the Internet Fund commenced operations on December 14, 1999. The Small Cap Growth Fund commenced operations on February 1, 2010 when it acquired the assets and liabilities of the Rockland Small Cap Growth Fund series of Rockland Funds Trust in a reorganization transaction (the Small Cap Growth Fund is the successor fund to the Rockland Small Cap Growth Fund). The Small Cap Growth Fund acquired the Class I and Class R shares of the Jacob Small Cap Growth Fund II (formerly, PineBridge US Small Cap Growth Fund) series of Jacob Funds II (formerly, the PineBridge Mutual Funds) (the "Predecessor Small Cap Growth Fund") on November 12, 2012. The Small Cap Growth Fund acquired the Investor Class shares of the Jacob Wisdom Fund series of the Corporation on August 26, 2016. Effective December 31, 2020, the name of the Jacob Micro Cap Growth Fund was changed to the Jacob Discovery Fund. The Discovery Fund commenced operations on November 12, 2012 when it acquired the assets and liabilities of the Jacob Micro Cap Growth Fund (formerly, PineBridge US Micro Cap Growth Fund) series of Jacob Funds II (the "Predecessor Micro Cap Growth Fund") in a reorganization transaction (the Discovery Fund is the successor fund to the Predecessor Micro Cap Growth Fund). The Forward ETF commenced operations on July 13, 2021.

The Small Cap Growth Fund and Discovery Fund currently offer Investor Class and Institutional Class shares. The Internet Fund and Forward ETF currently offers one class of shares. Each share of each class of a Fund represents an equal pro rata interest in such Fund and provides the shareholder the same voting, dividend, and other rights, except that shareholders of each class of a Fund have exclusive voting rights regarding any matter relating solely to that particular class.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Funds. These policies are in conformity with accounting principles generally accepted in the United States of America ("GAAP"). The Funds are investment companies and follow accounting and reporting guidance under the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 946, "Financial Services – Investment Companies".

(a) Investment Valuation. Investment securities traded on a national securities exchange are valued at their market value determined by their last sales price in the principal market in which these securities are normally traded (except those traded on the NASDAQ National Market and Capital Market exchanges which are valued at the NASDAQ Official Closing Price ("NOCP")), unless there are no transactions on the valuation date, in which case they are valued at the mean between the closing bid and ask prices. Securities traded over-the-counter are valued at the last reported sales price unless there is no reported sales price, in which case the mean between the closing bid and ask prices is used. Foreign securities, currencies and other assets denominated in foreign currencies are translated into U.S. dollars at the exchange rate of such currencies. Foreign equity securities are valued at the last.

The Funds adhere to fair valuation accounting standards which provide an authoritative definition of fair value and set out a hierarchy for measuring fair value. These standards require disclosures about the various inputs and valuation techniques used to develop the measurements of fair value and a discussion in changes in valuation techniques and related inputs during the period. These standards define fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy is organized into three levels based upon the

assumptions (referred to as "inputs") used in pricing the asset or liability. These standards state that "observable inputs" reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from independent sources and "unobservable inputs" reflect an entity's own assumptions about the assumptions market participants would use in pricing the asset or liability.

Summary of Fair Value Exposure

Various inputs are used in determining the value of the Funds' investments. These inputs are summarized in the three broad levels listed below:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities that the Funds have the ability to access.
- Level 2 Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument in an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.
- Level 3 Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Funds' own assumptions about the assumptions a market participant would use in valuing the asset or liability, and based on the best information available.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

- (b) Investment Transactions and Investment Income. Investment transactions are accounted for on the date the securities are purchased or sold (trade date). Dividend income is recorded on the ex-dividend date except that certain dividends for foreign securities where the ex-dividend date may have passed are recorded as soon as the Fund is informed of the dividend in the exercise of reasonable diligence. Withholding taxes on foreign dividends have been provided for in accordance with the Funds' understanding of the applicable country's tax rules and rates. Interest income is recognized on the accrual basis.
- (c) Expenses. Expenses that are not attributable to a particular Fund are typically allocated in proportion to each Fund's respective net assets. Expenses, other than those which are class specific, are allocated to a particular share class in proportion to each class's respective net assets. Expenses are recorded on an accrual basis.
- (d) Foreign Currency Transactions. The books and records are maintained in U.S. dollars. Foreign currency denominated transactions (i.e., market value of investment securities, assets and liabilities, purchases and sales of investment securities, and income and expenses) are translated into U.S. dollars at the current rate of exchange.

The Funds do not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss from investments.

- (e) Distributions to Shareholders. The Funds record distributions to shareholders on the ex-dividend date. Dividends from net investment income, if any, are declared and paid annually. Distributions of net realized capital gains, if any, will be declared and distributed annually. The amounts of distributions from net investment income and net realized capital gains are determined in accordance with federal income tax regulations, which may differ from those amounts determined under GAAP. These book/tax differences are either temporary or permanent in nature. To the extent these differences are permanent, reclassifications are made in the capital accounts in the period that the differences arise. The reclassifications have no effect on net assets or net asset value per share.
- (f) Federal Income Taxes. The Funds comply with provisions of Subchapter M of the Internal Revenue Code applicable to regulated investment companies, including the distribution of substantially all of the Funds' taxable income. Accordingly, no provision for federal income taxes is considered necessary in the financial statements.
 - The Funds follow accounting standards regarding recognition and measurement of tax positions taken on a tax return. No material uncertain tax positions existed as of August 31, 2024. As a result, the Funds have not recorded any liabilities for uncertain tax positions as of August 31, 2024. The standards require the Funds to analyze all open tax years, as defined by the Statute of Limitations, for all major jurisdictions. Open tax years are those that are open for examinations by taxing authorities. As of August 31, 2024, open federal tax years include the tax years ended August 31, 2021 through August 31, 2023.
- (g) Use of Estimates. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.
- (h) Contingencies and Commitments. The Funds indemnify the Corporation's Officers and Directors for certain liabilities that might arise from their performance of their duties to the Funds. Additionally, in the normal course of business, the Funds enter into contracts that contain a variety of representations and warranties and which provide general indemnifications. Each Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, based on experience, the Corporation generally expects the risk of loss to be remote.

August 31, 2024 (Continued)

Shares of the Forward ETF are listed and traded on New York Stock Exchange Arca, Inc. ("NYSE Arca"). Market prices for the shares may be different from its NAV. The Forward ETF issues and redeems shares on a continuous basis at NAV generally in blocks of 10,000 shares. The general blocks of shares issued or redeemed are called "Creation Units." Creation Units are issued and redeemed principally in-kind for securities included in a specified universe. Once created, shares generally trade in the secondary market at market prices that change throughout the day. Except when aggregated in Creation Units, shares are not redeemable securities of a Fund. Creation Units of a Fund may only be purchased or redeemed by certain financial institutions ("Authorized Participants"). An Authorized Participant is either (i) a broker-dealer or other participant in the clearing process through the Continuous Net Settlement System of the National Securities Clearing Corporation or (ii) a Depository Trust Company participant and, in each case, must have executed a Participant Agreement with the Distributor. Most retail investors do not qualify as Authorized Participants nor have the resources to buy and sell whole Creation Units. Therefore, retail investors are unable to purchase or redeem the shares directly from a Fund. Rather, most retail investors may purchase shares in the secondary market with the assistance of a broker and are subject to customary brokerage commissions or fees.

The Forward ETF offers one class of shares, which have no front-end sales loads, no deferred sales charges, and no redemption fees. A fixed transaction fee is imposed for the transfer and other transaction costs associated with the purchase or sale of Creation Units. The Forward ETF charges \$250 for the standard fixed transaction fee, payable to the Custodian. The fixed transaction fee may be waived on transaction orders if the Forward ETF's Custodian has determined to waive some or all of the costs associated with the order, or another party, such as the Adviser, has agreed to pay such fee. In addition, a variable fee payable to the Fund may be charged on all cash transactions or substitutes for Creation Units of up to a maximum of 2% in the Forward ETF as a percentage of the value of the Creation Units subject to the transaction. Variable fees are imposed to compensate the Forward ETF for the transaction costs associated with the cash transactions fees. Variable fees received by the Forward ETF, if any, are displayed in the Capital Share Transactions of the Statements of Changes in Net Assets.

From time to time, the Funds may have a concentration of shareholders holding a significant percentage of shares outstanding. Investment activities of these shareholders could have a material impact on the Funds. The following table shows the number of shareholders owning greater than 10% of the outstanding shares in each of the Funds at August 31, 2024:

The differences between cost amounts for book purposes and tax purposes are primarily due to the tax deferral of losses on wash sales and tax adjustments on Passive Foreign Investment Companies ("PFICs"). To the extent the Funds realize future net capital gains, taxable distributions to its shareholders will be offset by any unused capital loss carryover. At August 31, 2024, the Funds had the following capital loss carryovers and capital loss utilized:

	Capital Loss Carryover		Capital Loss Utilized

Reclassification Adjustments: GAAP requires that certain components of net assets be reclassified between financial and tax reporting. These reclassifications have no effect on net assets or net asset value per share. For the year ended August 31, 2024, permanent differences, due to net operating losses, in book and tax accounting have been reclassified to capital and distributable earnings for the Funds, and Forward ETF also saw reclassification due to in-kind transactions as follows:

	Internet Fund	Small Cap Growth Fund	Discovery Fund	
Distributable Earnings	\$(17,986)	\$ 76,323	\$ 282,185	\$(35,929)
Capital Stock	17,986	(76,323)	(282,185)	35,929

NOTE 6 – INVESTMENT ADVISORY AND OTHER AGREEMENTS

The Corporation has entered into Investment Advisory Agreements (the "Advisory Agreements") with Jacob Asset Management of New York LLC (the "Adviser"), with whom certain Officers and a Director of the Board are affiliated, to furnish investment advisory services to the Funds. Under the terms of the Advisory Agreements, the Corporation compensates the Adviser for its management services based on an annual rate of 0.80% of the Small Cap Growth Fund's average daily net assets up to \$250 million and 0.70% of annual average daily net assets over \$250 million and 0.75% of the Forward ETF's average daily net assets. The adviser fee of the Forward ETF is a unitary fee, whereby the Adviser has agreed to pay all of the ordinary operating expenses of the Fund, including the cost of transfer agency, custody, fund administration, legal, audit and other services. The Adviser is not responsible for, and the Fund will bear the cost of, (i) payments under the Fund's Rule 12b-1 plan, (ii) brokerage commissions and other expenses incidental to transactions in portfolio securities or instruments, (iii) acquired fund fees and expenses, (iv) taxes (including accrued deferred tax liability), (v) interest (including borrowing costs and dividend expenses on securities sold short and overdraft charges), (vi) litigation expenses (including litigation to which the Corporation or a Fund may be a party and indemnification of the Directors and officers with respect thereto), and (vii) other extraordinary or non-routine expenses (including expenses arising from mergers, acquisitions or similar transactions involving any Fund).

Effective June 1, 2021, the Corporation compensates the Adviser for its management services based on an annual rate of 1.25% of the Internet Fund's average daily net assets up to \$250 million and 0.90% of annual average net assets over \$250 million and 1.10% of the Discovery Fund's average daily net assets up to \$250 million and 0.80% of annual average daily net assets over \$250 million.

The Adviser has contractually agreed to waive its advisory fees in an amount up to an annual rate of 0.10% of the Internet Fund's average daily net assets to the extent the Internet Fund's total annual operating expenses (excluding any taxes, interest, brokerage fees, acquired fund fees and expenses and extraordinary expenses) exceed 2.95% for Investor Class shares average daily net assets through at least January 5, 2025. The Adviser has the ability to recoup amounts waived for a period of thirty-six months following such fee waivers to the extent that such recoupment by the Adviser will not cause the Internet Fund to exceed any applicable expense limitation in place when the fee was waived. For the fiscal year ended August 31, 2024, the Adviser did not waive any fees with respect to the Internet Fund.

Effective November 12, 2012 (date of reorganization of the Predecessor Small Cap Growth Fund into the Small Cap Growth Fund), the Adviser contractually agreed to waive up to 100% of its advisory fee to the extent the Small Cap Growth Fund's total annual operating expenses (excluding any taxes, interest, brokerage fees, acquired fund fees and expenses and extraordinary expenses) exceed 2.25% and 1.95% for Investor Class and Institutional Class Shares, respectively, of each class's average daily net assets through at least January 5, 2025. The Adviser has the ability to recoup amounts waived for a period of thirty-six months following such fee waivers to the extent that such recoupment by the Adviser will not cause the Fund to exceed any applicable expense limitation in place when the fee was waived. For the fiscal year ended August 31, 2024, fees of \$56,241 were waived by the Adviser with respect to the Small Cap Growth Fund.

Effective December 29, 2016, the Adviser contractually agreed to waive up to 100% of its advisory fee to the extent the Discovery Fund's total annual operating expenses (excluding any taxes, interest, brokerage fees, acquired fund fees and expenses and extraordinary expenses) exceed 2.30% and 2.00% for Investor Class and Institutional Class shares,

respectively, of each class's average daily net assets through at least January 5, 2025. The Adviser has the ability to recoup amounts waived for a period of thirty-six months following such fee waivers to the extent that such recoupment by the Adviser will not cause the Fund to exceed any applicable expense limitation in place when the fee was waived. For the fiscal year ended August 31, 2024, fees of \$117,505 were waived by the Adviser with respect to the Discovery Fund. The amounts below are eligible for recoupment by the Adviser, however, the Adviser has not begun recouping as of August 31, 2024.

Following is a schedule of when fees may be recouped:

Internet Fund	Small Cap Growth Fund	Discovery Fund	Expiration
\$ —	\$ 65,582	\$	August 31, 2025
_	63,547	75,376	August 31, 2026
	56,241	117,505	August 31, 2027
<u>\$ </u>	<u>\$185,370</u>	\$192,881	

U.S. Bancorp Fund Services, LLC, doing business as U.S. Bank Global Fund Services ("Fund Services") and an indirect wholly owned subsidiary of U.S. Bancorp, serves as transfer agent, administrator and accounting services agent for the Funds. U.S. Bank, N.A. serves as custodian for the Funds. All providers receive customary fees for services rendered.

NOTE 7 – DISTRIBUTION AND SERVICE PLAN

The Corporation, on behalf of the Internet Fund, has adopted a distribution and service plan (the "Internet Fund Plan"), pursuant to Rule 12b-1 under the 1940 Act. The Internet Fund Plan provides that the Internet Fund will compensate the Adviser 0.25% per annum of the Investor Class shares of the Internet Fund's average daily net assets for certain expenses and costs incurred in connection with providing shareholder servicing and maintaining shareholder accounts and to compensate parties with which it has written agreements and whose clients own shares of the Internet Fund for providing servicing to their clients ("Shareholder Servicing Fee"). The Internet Fund Plan also provides for a distribution fee equal to 0.10% of the Investor Class shares of the Internet Fund's average daily net assets on an annual basis ("Asset Based Sales Charge"). The fee is used to compensate Quasar Distributors, LLC, the Funds' distributor (the "Distributor"), for basic distribution services, out of pocket expenses incurred in connection with activities to sell Internet Fund shares, advertising, compliance reviews, and licensing of the Adviser's staff. The Distributor may make payments from time to time from the Asset Based Sales Charge to broker-dealers and other financial professionals whose clients are Internet Fund shareholders for providing distribution assistance and promotional support to the Internet Fund. Remaining amounts of the Asset Based Sales Charge may be used to satisfy distribution costs as directed by the Adviser. Effective September 1, 2016 through at least January 5, 2025, the Board determined to reduce such fees payable under the Internet Fund Plan from 0.35% to 0.25% of the Internet Fund's average daily net assets on an annual basis. The Internet Fund incurred \$121,843 in expenses pursuant to the Internet Fund Plan for the fiscal year ended August 31, 2024.

The Corporation, on behalf of the Small Cap Growth Fund and Discovery Fund, has adopted a distribution and service plan (the "Plan") pursuant to Rule 12b-1 under the 1940 Act. Rule 12b-1 provides that an investment company that bears any direct or indirect expense of distributing its shares must do so only in accordance with the Plan as permitted by Rule 12b-1. Pursuant to the Plan, the Small Cap Growth Fund and Discovery Fund make payments to the Distributor, the Adviser, financial intermediaries or others to reimburse such parties for distribution and/or shareholder servicing activity in an amount not to exceed 0.35% of the average daily net assets of the Investor Class shares of the Small Cap Growth and Discovery Funds on an annual basis. Effective September 1, 2016 through at least January 5, 2025, the Board determined to reduce such fees payable under the Plan from 0.35% to 0.25% of the average daily net assets of the Investor Class shares of the Small Cap Growth and Discovery Funds. The distribution fees are "asset based" sales charges and, therefore, long-term shareholders may pay more in total sales charges than the economic equivalent of the maximum front-end sales charge permitted by the Financial Industry Regulatory Authority (FINRA). The Small Cap Growth Fund incurred \$7,401 and the Discovery Fund incurred \$23,488 in expenses pursuant to the Plan for the fiscal year ended August 31, 2024.

NOTE 8 – INDUSTRY CONCENTRATION RISK

Internet and Internet-Related Industries Risk: The Internet Fund invests a significant portion of its assets in Internet and Internet-related industries and thus the value of the Fund's shares may be susceptible to factors affecting such industries, including factors affecting the computer/Internet technology area generally, and may be susceptible to greater risk and market fluctuation than an investment in a fund that invests in a broader range of portfolio securities not concentrated in any particular area or industry. Companies in Internet and Internet-related industries face special risks associated with the rapidly changing field of computer/Internet technology. For example, their products or services may not prove commercially successful or may become obsolete quickly. The computer/Internet technology area may be subject to greater governmental regulation than many other areas and changes in governmental policies and the need for regulatory approvals may have a material adverse effect on these areas. Additionally, companies in these areas may be subject to risks of developing technologies, competitive pressures and other factors and are dependent upon consumer and business acceptance as new technologies evolve. Many Internet and Internet-related companies incur large losses in the hope of capturing market share and generating future revenues, but may never be profitable.

Science and Technology Risk: The Funds' investments in science and technology companies expose the Small Cap Growth Fund and Discovery Fund to special risks. For example, rapid advances in science and technology might cause existing products to become obsolete, and the Fund's returns could suffer to the extent it holds an affected company's shares. Companies in a number of science and technology industries are also subject to more government regulations and approval processes than many other industries. This fact may affect a company's overall profitability and cause its stock price to be more volatile. Additionally, science and technology companies are dependent upon consumer and business acceptance as new technologies evolve.

NOTE 9 – SECURITIES LENDING

The Funds may lend up to 33 1/3% of the securities in its portfolios to brokers, dealers, and other financial organizations that meet capital and other credit requirements under terms of participation in a securities lending program administered by U.S. Bank N.A. The securities lending agreement requires that loans are collateralized at all times in an amount equal to at least 102% (for loans of U.S. securities) or 105% (for loans of foreign securities) of the market value of the securities loaned. The Fund has the right under the terms of the lending agreement to recall the securities from the borrower on demand.

The borrower of any securities will pay the Funds any accrued income while the securities are on loan. The cash collateral received is invested in a money market fund which is redeemable on demand.

There are certain risks associated with securities lending, including the risk that the borrower may fail to return the securities on a timely basis or even the loss of rights in the collateral deposited by the borrower, if the borrower should fail financially. As a result, the Funds may lose money.

The Fund manages credit exposure arising from these lending transactions by, in appropriate circumstances, entering into master netting agreements and collateral agreements with third party borrowers that provide the Funds, in the event of default (such as bankruptcy or a borrower's failure to pay or perform), the right to net a third party borrower's rights and obligations under such agreement and liquidate and set off collateral against the net amount owed by the counterparty.

As of August 31, 2024, the following Funds had equity securities on loan which are presented gross on the Statement of Assets and Liabilities:

	Market Value	Collateral Value
Internet Fund	\$ 631,167	\$ 687,041
Small Cap Growth Fund	358,945	383,282
Discovery Fund	1,747,727	1,822,195
Forward ETF	104,528	111,314

The fees and interest income earned through the securities lending program are reflected in the Statement of Operations. The collateral value pledged from the counterparty as of the end of the reporting period exceed the value of securities out on loan.

NOTE 10 – SUBSEQUENT EVENTS

On October 25, 2024, pursuant to an agreement between Jacob Funds Inc., on behalf of the Internet, Small Cap and Discovery Fund, the Board approved an amended and restated distribution and service plan (the "Plan") pursuant to Rule 12b-1 under the 1940 Act, to reduce the Plan related expenses from 0.35% to 0.25% of average daily net assets on an annual basis. The Funds' management has evaluated these changes and determined that they will not have a material impact on the Fund's financial statements as of August 31, 2024.

JACOB FUNDS INC. REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and Board of Directors of Jacob Funds Inc.

Opinion on the Financial Statements

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of Jacob Funds Inc. comprising Jacob Internet Fund, Jacob Small Cap Growth Fund, Jacob Discovery Fund, and Jacob Forward ETF (the "Funds") as of August 31, 2024, the related statements of operations for the year then ended, the statements of changes in net assets and financial highlights for each of the two years in the period then ended, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds as of August 31, 2024, the results of their operations for the year then ended, and the changes in net assets and financial highlights for each of the two years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

The Funds' financial highlights for the years or periods ended August 31, 2022, and prior, were audited by other auditors whose report dated October 27, 2022, expressed an unqualified opinion on those financial highlights.

Basis for Opinion

These financial statements are the responsibility of the Funds' management. Our responsibility is to express an opinion on the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Funds in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of August 31, 2024, by correspondence with the custodian. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the Funds' auditor since 2023.
